For the calculation of Invoiced Sales, members should note that:

1. Sales of Associated companies shall be deemed separate entities and, as such, shall pay a subscription based on the Invoiced Sales of each company.
2. Sales by companies that are subsidiaries of other member companies shall be aggregated with those of the parent company, and the subscription rate shall be calculated by the Association with reference to the sales of the Group as a whole.
3. As a general rule, the total turnover of the member should be included in this declaration. Still, if a member has Invoiced Sales that are not directly related to the nursery industry, the member should exclude sales of non-nursery products*.
4. Where a member company's sales are made up of services and not products, the member should include all Invoiced Sales related to services to the baby and nursery products industry.

Membership is automatically renewed annually unless a request for membership cancellation has been received at least 3 months before the renewal date.

**As a guide, we would expect sales of the following to be INCLUDED in the declaration: sales of all baby and nursery products, baby-related equipment such as prams, pushchairs, buggies, nursery furniture, highchairs, baby walking frames, bedding and safety related items, including barriers, car seats and restraints, clothing, bedding, feeding equipment, gifts for young children and prospective parents, toys, audio and books should be included. Accessories for all the above categories should also be included. Sales of products, components and parts should be included irrespective of source. This list is not exhaustive; members are asked to use their discretion.*
